EDITIONS

Marmi Editions

Exquisite Furnishings.
Elevated Design. Artisan Craft.

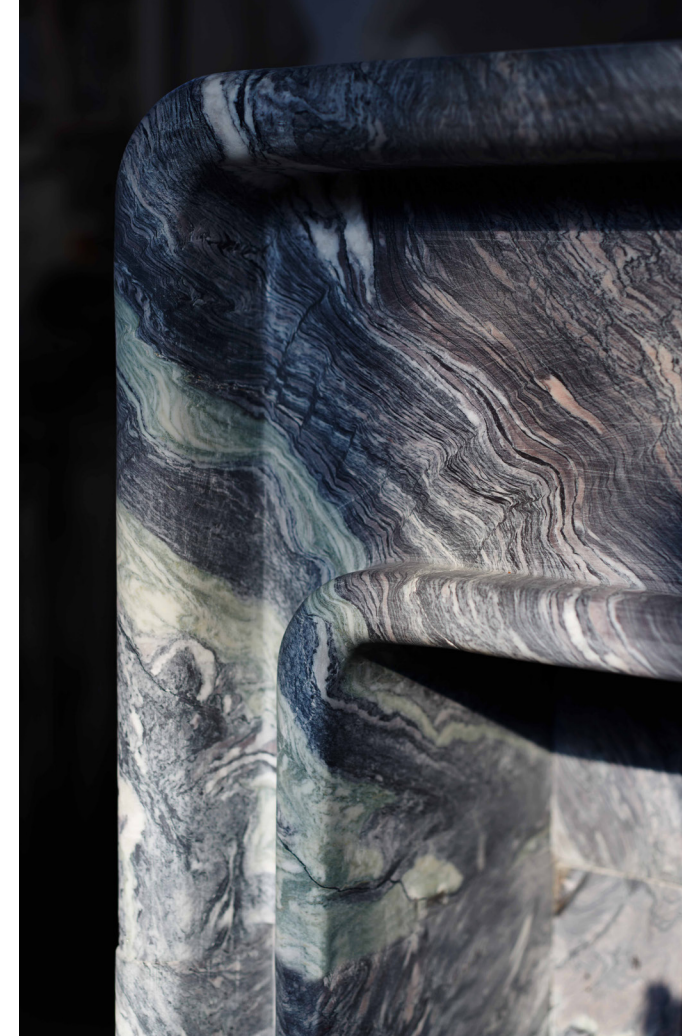

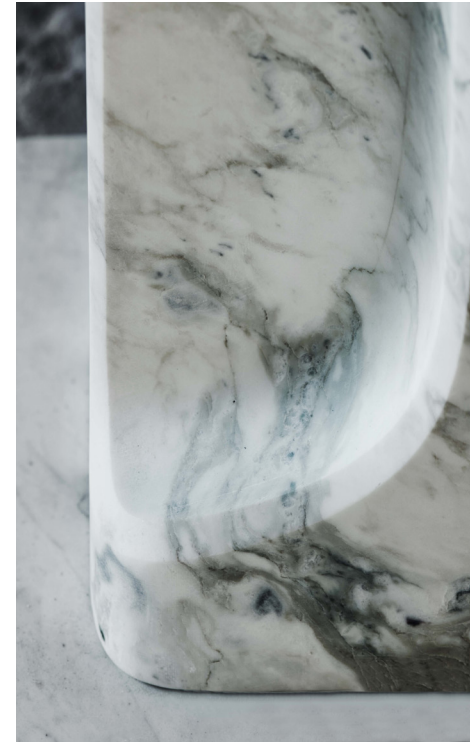

Over decades as we worked with clients on custom commissions, we saw that designers were in search of readily available, thoughtfully designed objects in stone that could deliver on the quality and distinction their projects required. Marmi Editions rises to meet this need. Marmi's unmatched expertise in stone fabrication, sourcing, and bespoke finishing elevates these designs, which draw from both classical and modern references – executed with a fresh eye in a spirit we call Neo Historic.

Each Edition is fabricated with care by Marmi artisans and can be adapted to your project via its range of styles, size, personalization, and installation options.

Crafted in Italy

Marmi carvers, craftspeople, and artisans combine cutting-edge technologies with old-world traditions to achieve advanced applications of natural stone. Each Edition offering is fashioned from specially selected and precisely cut blocks of stone and adorned with the finest natural metals.

Thoughtfully Detailed

Each Edition has been detailed with precision, integrating stone as both a structural and aesthetic element to maximize the potential of this exceptional material while supporting the overall design vision.

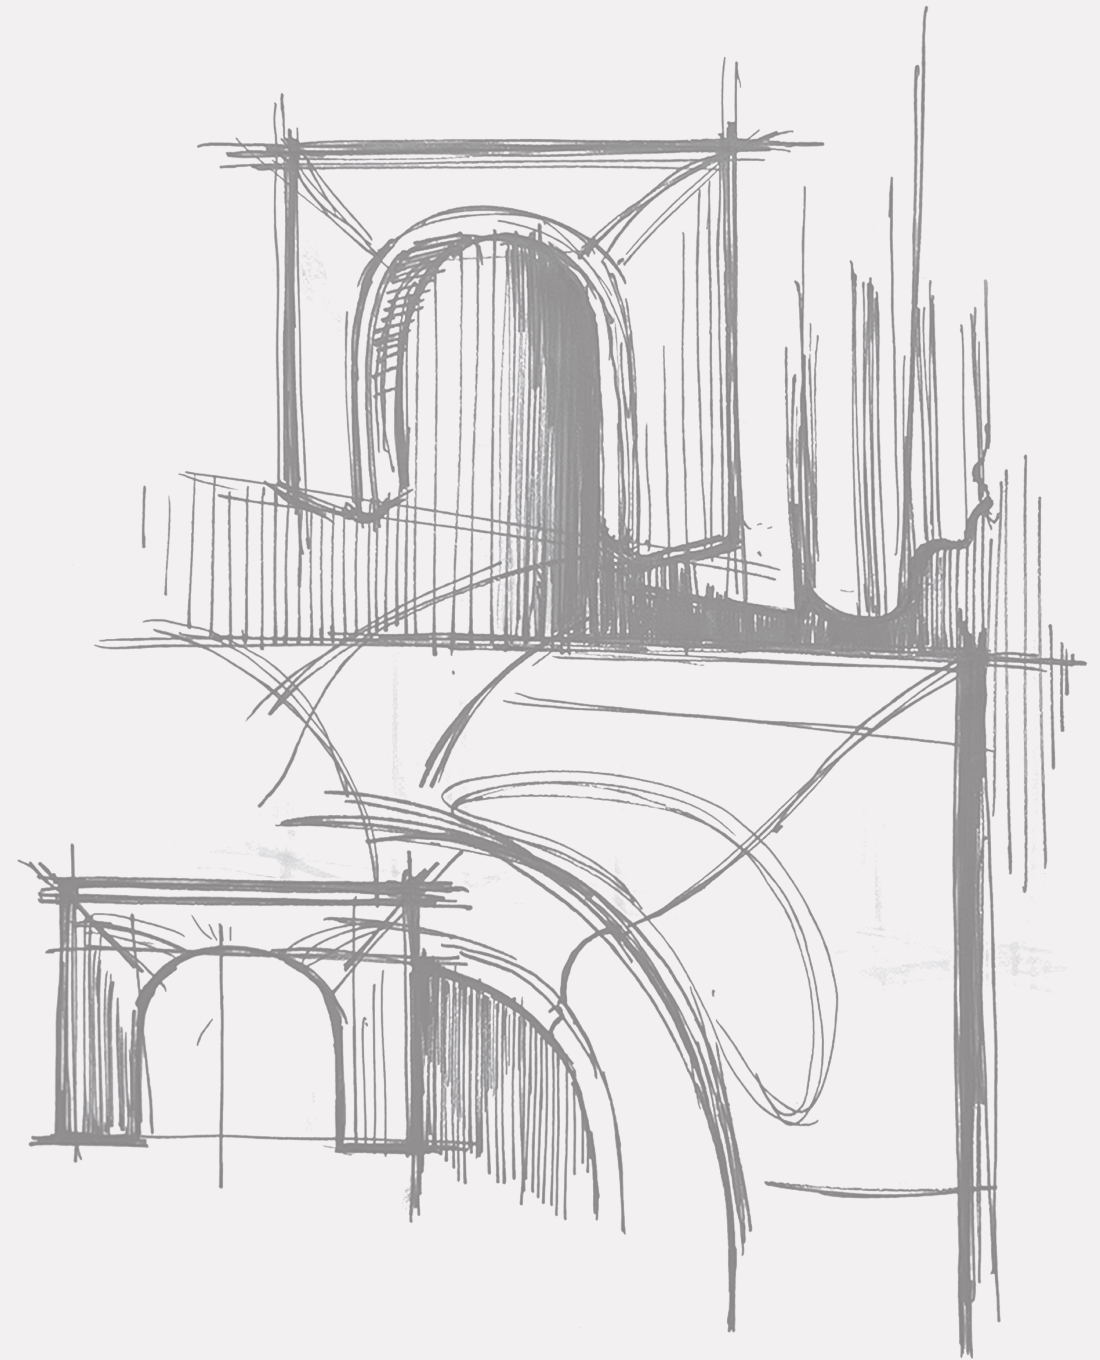

Edition N°1 Mantels

A Fresh Vision for the Hearth.

Marmi's Edition N°1 explores discovery, surprise, and the union of natural materials. Influenced by architectural styles, as well as the worlds of fashion and transportation design, each piece embraces stone and metal as complementary forces – celebrating the joinery not as something hidden, but as an opportunity for detail, character, and customization. With our mantels, corners and side elevations are not afterthoughts but stages for subtle moments of delight – revealing new perspectives as you move around the fireplace.

Continental Mantel in Picasso with Burnished Brass

“Fluidity, textures, intersections, fragmentation are all in play, as are weightiness and lightness, solidity and delicacy.”

NEIL ZULETA
CREATIVE DIRECTOR, MARMÍ

Edition N°2 Bath

A Refined Point of View on an Essential Ritual.

For our second Edition, Marmi's Creative Director, Neil Zuleta brought a refined point of view to an essential ritual: the bath. Building on the design vocabulary established in the first Edition, Edition N°2: Bath includes a full array of vanities, washstands, pedestal sinks, wall-mounted basins, vessels, and tubs, each carved from a single block of stone. Fundamentally architectural, with undulating contours and angled planes, the forms enhance the opulent complexity of their material, while the stone itself adds soul and dimension.

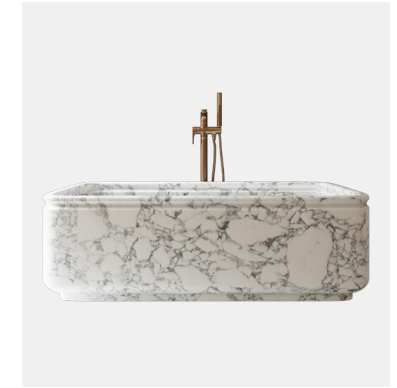

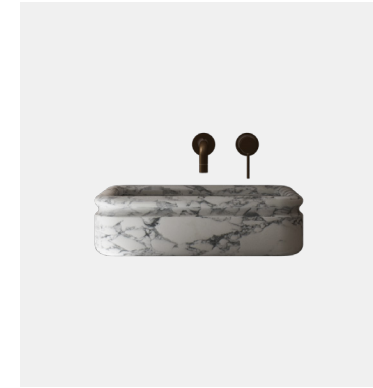

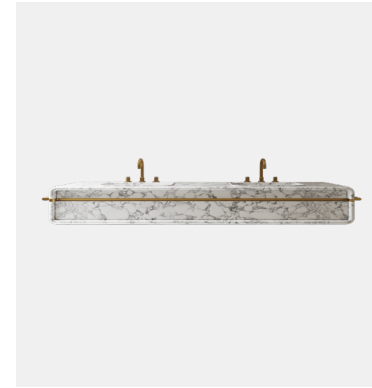

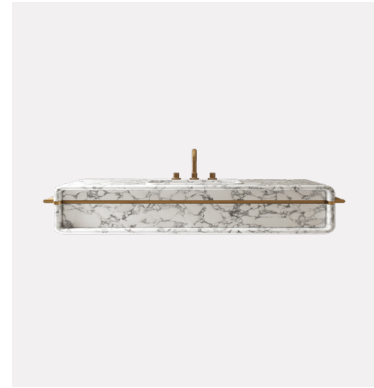

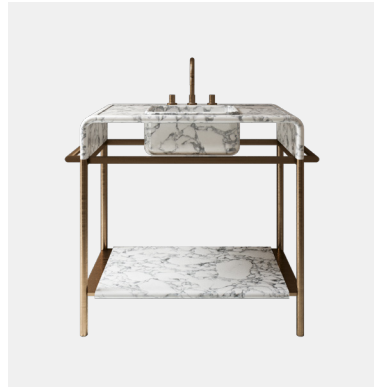

Hamilton Demilune Vanity in Picasso with Burnished Brass

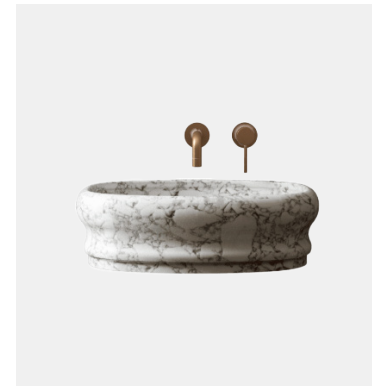

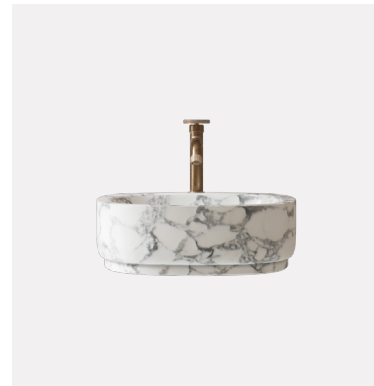

“The continuous flow between metal and stone captures natural light and shadows that enhance the beauty of the natural material.”

Edition N°3 Kitchen

Enhancing the Culinary Experience.

Our third Edition embraces handcraft, performance, and superior natural material – as essential to Marmi as to the art of cooking itself. The warmth and invitation inherent in the well-appointed kitchen is amplified through the allure of natural stone and attention to design detail certain to suit any kitchen aesthetic from traditional to modern. Marmi kitchens transcend utility and take the culinary experience to new levels. This Edition offers range hoods, apron sinks, backsplashes, shelving units – and its signature piece, configurable chef's islands.

Tassilo Range Hood, Backsplash, Apron Sink, and Shelving Unit - 2 Tier in Arabescato Corchia Antico with Burnished Brass

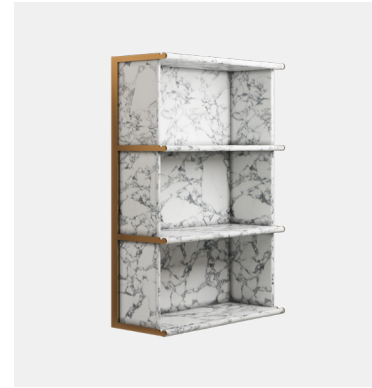

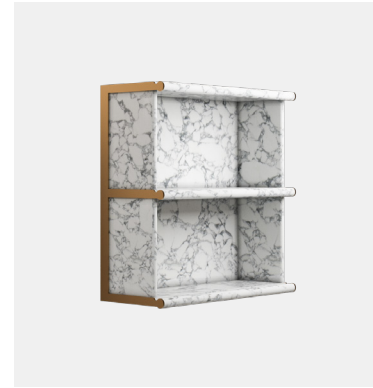

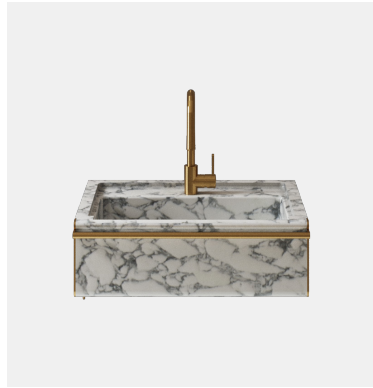

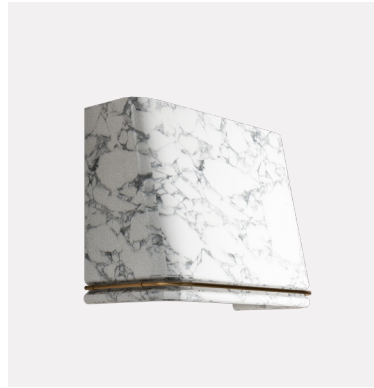

“Culinary endeavors are to finely crafted marble furnishings like precise technique are to expert fabrication. The two are grounded in discipline, material understanding, and attention to detail.”

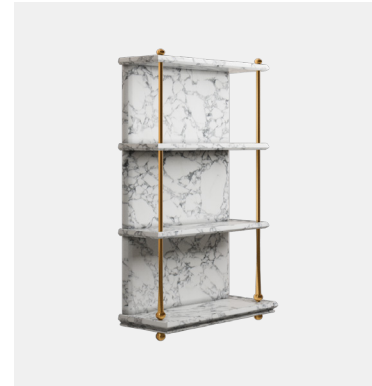

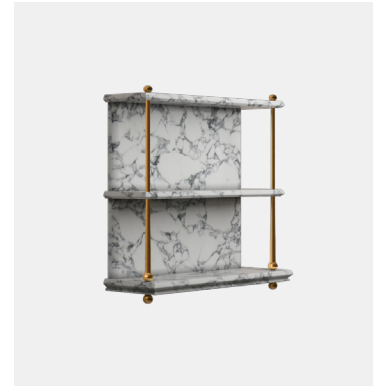

NEIL ZULETA

Edition N°4 Entertaining

Celebrating the Spirited Life.

Entertaining extends Marmi Editions into the social graces. These pieces transform hosting into an act of performance, ensuring every moment shared is grounded in enduring beauty. Edition Number 4 understands that entertaining is not defined by having company, but rather by honoring it with a stage worthy of the occasion.

The Editions Families

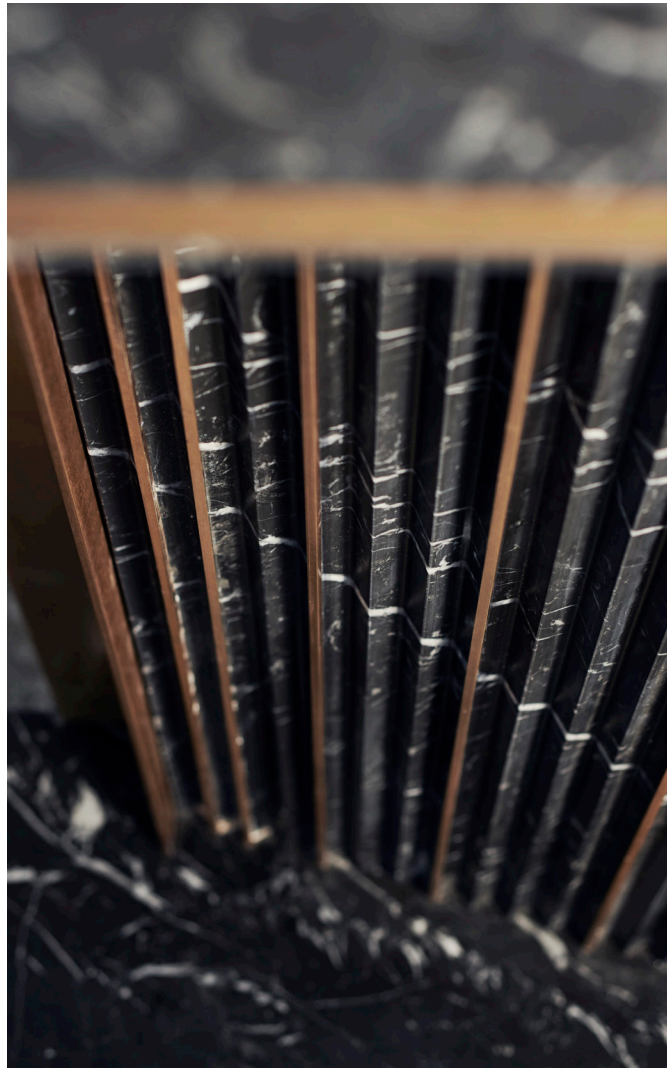

A Cornerstone Approach to Curating Selections.

The Editions families achieve exceptional versatility and reach by applying a coherent design language across an expansive array of pieces. This design philosophy masterfully bridges the gap between eras; the pieces are not strictly reverential but rather deconstruct references from modern, Art Deco, and neoclassical periods as well as industrial and fashion design, ensuring each item possesses both timeless elegance and current relevance for today's interiors.

While each Edition piece is conceived with the flexibility to curate unique groupings across families, selecting items from a singular family guarantees an effortless specification process, resulting in a project where every furnishing feels inherently cohesive and intentional. Turn the page to view four featured families that cross Editions. Additional pieces are added regularly; visit our website for our most updated offering.
